

# **Patty's Plants**

## **CROTON** **Codiaeum variegatum**

**There are hundreds of Croton varieties. All with brightly colored leaves.**

**These plants need a very bright spot or full sun to keep their color. The more light they have the better their color.**

**Crotons don't not like to have very wet soil. So let the plant dry slightly between watering.**

**They do like humidity so use a humidity tray with this one.**

**Crotons do not like cool areas. Keep them away from drafts.**
